Help us build emergency preparedness in Hostrups Have

As announced at the annual residents' meeting on April 13, 2026, we would like to assess our emergency preparedness needs here in Hostrups Have so that, in the event of a crisis, we can support one another as a community.

Our aim is to develop a plan outlining roles and responsibilities, as well as ways of contacting each other – and Heimstaden – without internet access, for example during a prolonged power outage.

We would now like to involve more residents and hear your ideas, experiences and any concerns you may have. We would also like to identify relevant skills and experience among residents in Hostrups Have – for example firefighters, police officers, doctors, nurses or others who may be able to contribute.

Our long-term goal is to establish an emergency preparedness plan for Hostrups Have so that:

- everyone knows who is responsible for what
- we have a resident contact list
- we have a designated meeting point

We can receive assistance from the Danish Emergency Management League (*Beredskabsforbundet*) through a workshop that provides guidance on setting up local emergency preparedness groups and advice on how to get started.

At present, there are two of us in the group. Once we have 5–8 participants, we can arrange a workshop with *Beredskabsforbundet*.
